Skills

- **Languages**: C++, Python, Java, JavaScript
- **Frameworks & Libraries**: HTML, CSS, NumPy, Pandas, Scikit-learn, SpringBoot, Hibernate
- **Tools & Platforms**: MySQL, PostgreSQL, Tableau, Power BI, Excel, AWS
- **Soft Skills**: Problem-Solving, Collaboration, Time Management, Adaptability

Projects

- **Obesity Level Prediction Model** | **Github** Dec'25-Dec'25
  - Preprocessed and analyzed obesity dataset using EDA and feature engineering.
  - Built and compared ML models (SVM, Logistic Regression, Decision Tree, Naïve Bayes).
  - Achieved best performance using SVM for accurate obesity level prediction of 97.40% accuracy.
  - Implemented the solution using Python, Pandas, NumPy, Scikit-learn.

- **Impact of AI Tools on Student Learning** | **Github** | **Link** Nov'25-Dec'25
  - Collected 124 real survey responses via Google Forms and expanded the dataset with 8000+ synthetic responses generated using ChatGPT.
  - Performed data cleaning and transformation using Power Query.
  - Built an interactive Power BI dashboard to visualize trends and insights.
  - Analyzed AI usage across demographics and academic disciplines.
  - Found that AI tools improve student engagement and learning outcomes.

- **Spotify Data Analysis Dashboard** | **Github** | **Link** Jul'25-Jul'25
  - Built an interactive dashboard to analyze music streaming trends, top artists, and platform-level insights.
  - Utilized Power BI and Power Query Editor for efficient data transformation and visualization.
  - Insights revealed over 489 billion total streams and identified shifts in user preferences, supporting data-driven strategies.

Training

- **From Data to Decisions: A Hands-On Approach to Data Science** | **LPU** Jun'25 – Jul'25
  - Cleaned and preprocessed datasets using Excel and Python, performed exploratory data analysis (EDA), and applied structured transformations using Power Query Editor.
  - Built interactive dashboards in Power BI and implemented supervised machine learning models using Python, Pandas, and NumPy.

Certificates

- Introduction on Generative AI – Artificial intelligence and Machine Learning | FutureSkills Feb'26
- Zinnovatio 3.0 Hackathon | Chandigarh University Oct'25
- Data Analytics Job Simulation | Deliotte Jun'25
- Cloud Computing | NPTEL May'25

Achievements/Extra-curricular Activities

- Participated in Google Developer Groups On-Campus Solution Challenge Aug'25
  Conducted by Hack2Skill
- Secured 2nd position in a C Programming Quiz among 100 participants Apr'24
  Conducted by the Microsoft Achievers Club in LPU
- Participated in COD-A-FESTx Competition Oct'23
  Organized by INNOVXUS in LPU

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.59*** *Since Aug'23*
- **Param Gyan Niketan** Gaya, India
  Intermediate; ***Percentage: 82.2*** *Apr'22 – Mar'23*
- **Kendriya Vidyalaya No.2** Gaya, India
  Matriculation; ***Percentage: 85.8*** *Apr'20 – Mar'21*
