GitHub: github.com/sakshisinha15

Email: sakshisinha2854@gmail.com
Mobile: +91-8873012448

SKILLS

Languages:	C++, Python, Java
Frameworks & Libraries:	HTML, CSS, NumPy, Pandas, Scikit-learn, Spring Boot, HBase, Cassandra
Tools & Platforms:	MySQL, PostgreSQL, Power BI, Excel, Hadoop, Hive, Figma
Core CS Fundamentals:	DBMS, Operating System, OOPs, Computer Networks, Data Structure and Algorithms
Soft Skills:	Time Management, Problem-Solving, Adaptability, Quick Learner

PROJECTS

Obesity Level Prediction Model Github	Dec' 25-Dec' 25
- Refined the obesity dataset to improve data quality, performing data cleaning, EDA, and feature engineering, resulting in optimized features for model training. - Benchmarked multiple machine learning models to identify the best prediction approach, comparing SVM, Logistic Regression, Decision Tree, and Naive Bayes, resulting in SVM achieving 97.40% accuracy. - Implemented an end-to-end machine learning pipeline to streamline model development, integrating data preparation, training, and evaluation, resulting in an efficient and reproducible prediction workflow. - Evaluated model performance using precision, recall, and F1-score alongside accuracy, ensuring robust classification across all obesity categories rather than relying on a single metric. Tech Stack:- Python, Machine Learning, Pandas, Numpy, Scikit-Learn	
Impact of AI Tools on Student Learning Github Live	Nov' 25-Dec' 25
- Collected 124 survey responses to improve analysis reliability, expanding the dataset to 8,000+ records using ChatGPT, resulting in a comprehensive dataset for analysis. - Refined the dataset to ensure data quality, applying cleaning and transformations using Power Query Editor, resulting in accurate and consistent data for visualization. - Developed an interactive Power BI dashboard to analyze real-time AI adoption trends, visualizing key insights and patterns across various demographics and academic disciplines, resulting in actionable findings on student engagement and overall learning outcomes. - Designed DAX measures and calculated columns to enable dynamic filtering by demographic segment, allowing stakeholders to drill down into discipline-specific adoption patterns. Tech Stack:- Power BI, Power Query Editor	

TRAINING

From Data to Decisions: A Hands-On Approach to Data Science – LPU	Jun' 25 – Jul' 25
- Conducted data cleaning, preprocessing, exploratory data analysis (EDA), and structured data3 transformation to prepare high-quality datasets for accurate analysis and predictive modeling. - Gained hands-on experience in dashboard development and supervised machine learning, building data-driven solutions to visualize insights and support predictive decision-making.	

CERTIFICATES

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle Link	Jun' 26
Introduction on Generative AI – Artificial intelligence and Machine Learning – FutureSkills Link	Feb' 26
Data Analytics Job Stimulation – Deloitte Link	Jun' 25
Cloud Computing – NPTEL Link	May' 25

ACHIEVEMENTS

Earned LeetCode's 50 Days and 100 Days badges for consistent problem-solving practice.	Jun' 26
Solved 200+ coding problems across LeetCode and GeeksforGeeks, sharpening problem-solving skills.	Jun' 26
Secured 2nd position in the C Programming Quiz conducted by the Microsoft Achievers Club at LPU, outperforming 98 of 100 participants.	Apr' 24

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.81	Aug' 23 - Present
Param Gyan Niketan	Gaya, Bihar
Intermediate; Percentage: 85.8	Jun' 22 – Apr' 23
Kendriya Vidyalaya No. 2	Gaya, Bihar
Matriculation; Percentage: 82.2	Jun' 20 - Apr' 21
